

Minister of Education, Culture, Research, and Technology Launches The Twentieth Episode of Emancipated Learning: The Practitioner Teach Program

Jakarta, 3 June 2022 – On various occasions, the President of the Republic of Indonesia (RI), Joko Widodo, has supported the transformative efforts of the Ministry of Education, Culture, Research, and Technology (Kemendikbudristek).

"I ask higher education to facilitate students to develop their talents. Allow students to learn from anyone, anywhere. Following what the Minister of Education, Culture, Research, and Technology has often said about the Emancipated Campus and the Emancipated Learning," the President of the Republic of Indonesia said in the video shown in the launching of the Twentieth Episode of Emancipated Learning: The Practitioner Teach, in Jakarta (3/6).

In line with an instruction of the President of the Republic of Indonesia, the Minister of Education, Culture, Research, and Technology (Mendikbudristek), Nadiem Anwar Makarim, called for Indonesian universities to transform for moving faster to leap to the future.

"Now is no longer the time for us to catch up with the lagging, but Indonesia must be at the forefront and lead the world's progress," said the Minister of Education, Culture, Research, and Technology, starting his presentation.

The Minister of Education, Culture, Research, and Technology stated that there are still considerable challenges in our higher education system, particularly concerning the level of readiness of university graduates to enter the working world. "This is the problem that has been going on for quite some time. Now we are taking concrete steps to cope with it," said Minister Nadiem.

The Minister of Education, Culture, Research, and Technology explains simply that in the Emancipated Campus program, the off-campus activities students gained work experience, whereas, in the Practitioner Teach Program, the experts in the industry came to campus to share their practical experiences.

"We want the great practitioners in the industrial world to come to campus and share their knowledge with students and lecturers. Through collaboration between practitioners and lecturers, we also want to present a more collaborative and participatory learning space," said the Minister of Education, Culture, Research, and Technology.

The presence of the Practitioner Teach Program, Minister Nadiem said, will bring updates to the learning system in the classroom so that students can learn using case study methods on current problems, students can apply the knowledge and theory gained to problem-solving models, and the student can develop their soft skills by working in groups.

"I invite all universities and all competent practitioners in various industrial fields to be involved in the Practitioner Teach program," said the Minister of Education, Culture, Research, and Technology.

So far, there have been 20 episodes of Emancipated Learning whose breakthroughs have touched all levels of education, from PAUD to university, as well as culture and language. Seven of them are targeting transformation at the higher education level.

"With real collaboration between universities and the industrial world, I believe we can lead the recovery of the world and move together to realize Emancipated Learning," concluded the Minister of Education, Culture, Research, and Technology.
